

AEEI is Looking for Environmental Energy Products --Areas of Interest

Email address: info@laeei.com

I. Environmental Protection

1. Air pollution control & prevention

- (1) Desulfurization
- (2) Denitrification
- (3) High efficiency dust removal
- (4) Volatile organic matter control
- (5) Diesel engine (vehicle) emission purification
- (6) Atmospheric environmental pollution monitoring

2. Soil pollution prevention

- (1) Pollution diagnosis
- (2) Pollution risk control
- (3) Pollution control and restoration

3. Water pollution prevention

- (1) Advanced treatment of wastewater
- (2) Desalination of industrial high-salt wastewater
- (3) Treatment of trace toxic pollutants in drinking water
- (4) Repair of groundwater pollution

II. New Energy

1. Renewable Energy

- (1) Hydrogen
- (2) Fuel Cell Technology
- (3) Solar photovoltaic and thermal utilization
- (4) Wind
- (5) Biomass
- (6) Geothermal
- (7) Ocean

2. Efficient recycling of resources

- (1)Efficient development and utilization of water resources
- (2)Clean development and utilization of metal resources
- (3)Waste recycling

3. Natural gas and LPG

- (1) the development of natural gas
- (2) the distribution of natural gas and LPG products

III. Environmental Energy Application

1. Modern transportation technology and equipment industry

- (1)New energy vehicles
- (2)New energy boats
- (3)Next-generation power batteries
- (4)Battery management
- (5)Motor drive and power electronics
- (6)Electric vehicle intelligent technology
- (7)Fuel cell power system plug-in 7-sequence hybrid system
- (8)Pure electric power system
- (9)Vehicle safety and structural weight reduction design

2. Advanced building materials, technologies and building systems

- (1)Building energy savings
- (2)Energy-saving integrated technology
- (3)Efficient cooling technology: active; passive
- (4)Multiple energy coordinated efficient utilization system
- (5)New and efficient lighting

3. Environmental energy in traditional industries

- (1)Agriculture
- (2)Landscaping
- (3)Health
- (4)Sightseeing
- (5)Theme Park
- (6)Film Production

IV. Services for Environmental Energy

1. Sponsoring environmental energy trade shows
2. Financial, insurance, IPO services in environmental energy
3. Education in environmental energy
4. Film production in environmental energy
