

## The Assumption of the Evolution of the Original Ecological Environmental Status and Human Business Activities

Wenyi Yu

AEEI Environmental Finance Institute

The relation between the original ecology and human business activity is generally assumed three stages:

$t=0$ , Original Ecological Environment (OEE),  $dOEE/dt=0$ ;

$t=b$ , while business appeared,  $dOEE/dtb < 0$ ;

$t=e$ , while environmental protection practice appeared,  $dOEE/dte > 0$
